

A heatmap visualization showing the distribution of the number of incorrect maneuvers for the 'maneuver' variable. The x-axis is labeled '# of incorrect maneuvers' and ranges from 0.00 to 2.00. The y-axis is labeled 'maneuver' and lists various maneuver types. The color scale indicates the frequency, with dark purple representing low frequency and yellow representing high frequency. The highest frequency is observed for the 'maneuver' type '0' at 0.50 incorrect maneuvers.
